02/04/2015		General Motors	<b>Manufacturer Safety recall issued</b> - NHTSA #14V827 - Recall #N140912 - IGNITION LOCK CYLINDER BINDING - Status: Remedy Available  Locate an authorized <a href="#">General Motors dealer</a> to obtain more information about this recall. - <a href="#">Learn more about this recall</a>
<p><b>Description:</b> General Motors has decided that a defect which relates to motor vehicle safety exists in certain vehicles serviced with defective steering columns. Certain of these vehicles may have an ignition lock actuator with an outer diameter that exceeds specifications. These ignition lock actuators may make turning the ignition key difficult and the ignition key could get stuck in the start position if the vehicles interior ambient temperature is sufficiently high. If the vehicle is driven with the key stuck in the start position, and the vehicles interior temperature cools or the vehicle experiences a significant jarring event, the ignition lock cylinder could move out of the start position, rotate past the run position, and move into the accessory position.</p> <p>If the key moves into the accessory position, engine power, power steering, and power braking will be affected, increasing the risk of a crash. In the event of a crash, the timing of the key movement into the accessory position relative to the activation of the sensing algorithm of the crash event may result in the airbags not deploying, increasing the potential for occupant injury in certain types of crashes.</p> <p><b>Remedy:</b> Dealers will inspect steering columns for identifying information (date code and/or production cavity number) and replace if necessary, the ignition lock housing, free of charge.</p>			
10/31/2016	13,436	California Inspection Station	<b>Passed emissions inspection</b>

10/23/2020	13,466	Arizona Motor Vehicle Dept. Scottsdale, AZ Title #A001787587	<b>Title issued or updated</b> - Dealer took title of this vehicle while it was in inventory
02/05/2021		General Motors	<b>Manufacturer Safety recall issued</b> - NHTSA #21V050 - Recall #N212328760 - FRONT PASSENGER AIRBAG TAKATA INFLATOR PRIORITY - GROUP 6 - Status: Remedy Available  Locate an authorized <a href="#">General Motors dealer</a> to obtain more information about this recall. - <a href="#">Learn more about this recall</a>
<p><b>Description:</b> TK Holdings Inc. (Takata) has decided that a defect which relates to motor vehicle safety exists in the passenger-side frontal airbag inflators installed as original equipment in certain 2007 to 2014 model year Cadillac Escalade, Escalade ESV, and Escalade EXT vehicles; certain Chevrolet Avalanche, Silverado 1500, Silverado 2500/3500, Suburban, and Tahoe vehicles; and certain GMC Sierra 1500, Sierra 2500/3500, Yukon, and Yukon XL vehicles. The determination was made that the propellant in these inflators may degrade after long-term exposure to high humidity and temperature cycling, which could cause the inflator to rupture during a deployment.</p>			

An inator rupture may cause metal fragments to pass through the airbag and into the vehicle interior at high speed, which may result in injury or death to vehicle occupants.

**Remedy:** Dealers will replace the passenger-side frontal airbag inflator.

## Glossary

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
