<p>Description: The Brake Transmission Shift Interlock (BTSI) locking pin may become stuck in the open position. A BTSI locking pin stuck in the open position may allow the transmission to be shifted out of PARK and to or from any gear position without depression of the brake pedal and/or without the key in the ignition, if a key is applicable.</p> <p>The transmission may be shifted of the PARK position without a key in the ignition or a brake pedal application. This increases the potential for an unintended vehicle rollaway that may result in a vehicle crash or injury without prior warning.</p> <p>Remedy: For 2013-2017 model year; Inspect the Brake Transmission Shift Interlock (BTSI) operation and replace if necessary. The Body Control Module (BCM) software will also be updated. For 2009-2012 model year; replace the BTSI, BCM software update not applicable.</p>

Description: The tailgate actuator limiter tab within the power lock actuator control assembly may fracture allowing the lock rod control bracket to over-travel which may pull the lock rods and release the latches, potentially resulting in the tailgate inadvertently falling open at any time.

An unintended opening of the tailgate while driving may result in a loss of unrestrained cargo from the truck bed while driving. Lost cargo may create a road hazard to operators and occupants of other vehicles, and can cause such vehicles to crash without

Remedy: FCA US will conduct a Voluntary Safety Recall on all affected vehicles. The remedy for this item will limit the locking actuator travel and not allow the pivot arm from

overtraveling and pulling on the locking/unlocking rods

Glossary

Auction Disclosures or Announcements

Dealers and institutions (i.e. fleet companies, rental car companies, and manufacturers) sell millions of cars at auction each year. Sellers often provide disclosures about a vehicle's damage, mileage, or repair history. These disclosures are made available to potential buyers in pre-sale lists and in auction announcements.

Commercial

Vehicle was registered for business purposes.

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 6/4/23 at 8:10:12 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
