09/10/2021		Mercedes-Benz USA LLC		Manufacturer Safety recall issued - NHTSA #21V483 - Recall #2021080021 Recall - Safety Title/ Topic: Automatic locking retractor seat belts rear seat row MY: 2021-2022 Mod - Status: Remedy Available Click here or call 1-800-367-6372 to locate an authorized Mercedes-Benz dealer near you to obtain more information about this recall

○ Learn more about this recall

Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has been informed by its supplier Autoliv that it might have been supplied with certain seat belt assemblies manufactured by certain Autoliv Group companies between October 26, 2020 and January 27, 2021, which might not fulfill certain requirements of FMVSS 208. The potential issue is described by Autoliv in its equipment report as follows: "Autoliv has determined that these seat belt assemblies do not comply with FMVSS 208 S7.1.1.5, which requires each designated seating position except the driver's position to have "a seat belt" assembly whose lap belt portion is lockable so that the seat belt assembly can be used to tightly secure a child restraint system." The potential impacts are described by Autoliv in its equipment report as follows: "This noncompliance does not impact the compliance or functionality of the seat belt assemblies with respect to their normal use by adult passengers or use of the LATCH system to secure child restraint seats. With child restraint seats for which the vehicle owner elects to use the seat belt to secure the child restraint seat instead of the LATCH system, even in a braking situation the normal seat belt locking mechanism, or ELR, prevents the seat belt from lengthening and the child restraint seat from moving even if the ALR functions not activated. AAccording to the NHTSA Recall Acknowledgment document sent to Autoliv (21E-052): "A seat belt retractor that does not function as intended can increase the risk of injury during a crash." An authorized Mercedes-Benz dealer will check and replace, respectively, the rear seat belts on the affected vehicles if necessary.

The potential impacts are described by Autoliv in its equipment report as follows: "This noncompliance does not impact the compliance or functionality of the seat belt assemblies with respect to their normal use by adult passengers or use of the LATCH system to secure child restraint seats. With child restraint seats for which the vehicle owner elects to use the seat belt to secure the child restraint seat instead of the LATCH system, even in a braking situation the normal seat belt locking mechanism, or ELR, prevents the seat belt from lengthening and the child restraint seat from moving even if the ALR functions not activated. AAccording to the NHTSA Recall Acknowledgment document sent to Autoliv (21E-052): "A seat belt retractor that does not function as intended can increase the risk of injury during a crash."

Remedy: An authorized Mercedes-Benz dealer will check and replace, respectively, the rear seat belts on the affected vehicles if necessary.

This vehicle's oil change history, as reported to CARFAX, follows the manufacturer's recommendation. Track your service history for free at carfax.com/service.

Have Questions? Consumers, please visit our Help Center at www.carfax.com. Dealers or Subscribers, please visit our Help Center at www.carfaxonline.com.

CARFAX Well Maintained - Regular Oil Changes

CARFAX identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to CARFAX. CARFAX uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, CARFAX may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
